REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art of record fail to teach or suggest a tool having a first and second jaw at a distal end of a shaft and moveable relative to each other. The first jaw having a first and second channel adapted to retain and support a wire guide and suture wire and further including a passage for a slidable cutting bar. Further wherein the second jaw is bifurcated and cause the suture wire to have a looping configuration when the wire is advanced via an actuator mounted on the handle.

For these reasons the claims are deem to be allowable over the art of record

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
